#Education

Dec, 2021// Feb, 2024
MBA, Sri Venkateswara University

I successfully completed my MBA in 2024 while working full-time at Reliance. My studies, conducted online, enhanced my critical thinking and problem-solving skills, perfectly aligning with my career shift into data analytics.

- Business Management & Operations: Understanding and optimizing organizational processes.
- Quantitative Techniques & Statistics: Analyzing data, identifying patterns, and driving data-driven decisions.
- Financial Analysis & Planning: Interpreting financial data and making strategic decisions.
- Strategic Problem-Solving: Assessing challenges and finding data-supported solutions.
- Data Interpretation & Presentation: Effectively communicating data insights to stakeholders.

This combination of academic knowledge and hands-on experience at Reliance has equipped me with the skills and foundation to excel in my data analytics career.

Mar, 2016// Sep, 2020
Bachelor's degree (BHMCT), Osmania University, Hyderabad

// 2025
Data Analytics / Bussiness Analytics, white scholars, Bengaluru

#Experience

```
{
  Feb, 2021
  Assistant Sales Manager, Reliance Retail ltd

  With over 3.7 years of experience in the retail grocery sector at Reliance Industries, I managed sales operations, optimized inventory, and improved performance across multiple store locations. My responsibilities included tracking sales targets, streamlining operations, and developing strategies to enhance stock management and customer experience.

  I regularly analyzed physical stock versus system data, identifying patterns in wastage, usage, and cash flow to improve stock management. Using historical data, I assisted in planning and forecasting inventory needs, which led to reduced wastage and better stock availability.

  A key project I contributed to was supporting the successful operation of new stores and inventory systems during expansion. Collaborating with cross-functional teams, I ensured efficient resource allocation and tracked performance metrics to enhance overall operations.
